8.1 INTRODUCTION

STATUTE & REGULATION	The CAPITAL IMPROVEMENTS Element is required by Florida Statue 1013.30(3).
SINERSITY SYSTEM OF	Each Campus Master Plan element must follow the guidelines stated in the Florida Board of Governors (BOG) Regulations, Chapter 21. BOG Regulation 21.211 states the purpose of the CAPITAL IMPROVEMENTS element:
TORDA.	"This element evaluates the need for public facilities as identified in other campus master plan elements; to estimate the cost of improvements for which the university has fiscal responsibility; to analyze the fiscal capability of the university to finance and construct improvements; to adopt financial policies to guide the funding of improvements; and to schedule the funding and construction of improvements in a manner necessary to ensure that capital improvements are provided when required based on needs identified in the other campus master plan elements. All development is contingent upon the availability of funding.
NARRATIVE	The CAPITAL IMPROVEMENTS element includes
	 GOALS OBJECTIVES AND POLICIES related to Capital Improvements on the UCF Main Campus and other sites.
	 DATA AND ANALYSIS based on the facility needs as identified in the other elements to support the future needs as identified in the future land use element.
	 EXHIBITS include: A Schedule of Capital Projects (SCP) listing all future projects envisioned for the 10-year planning interval, on the Main Campus and other Sites.
	 A Capital Improvements Map of the Main Campus showing the proposed locations (sites) for improvements shown in the SCP
STRATEGIC PLAN ALIGNMENT	This element aligns with all four priorities stated in the UCF strategic plan "UNLEASHING POTENTIAL – Becoming the University for the Future", specifically:
	<u>Student Success and Well Being</u> Capital Improvements that provide on-campus housing and student success facilities will "accelerate student success and enhance wellbeing."
	<u>Discovery and Exploration</u> Capital Improvements providing academic and research facilities are examples of how UCF will "invest in our research infrastructure in ways that address prevailing workforce needs in the state,

10.0	CAPITAL IMPROVEMENTS
	accelerate the development of industry clusters, attract new companies and high-wage jobs to Florida."
	<u>Community and Culture</u> Capital Improvements improve the University and will "help make UCF a destination of choice for the most talented people, a best place to learn and work, and a partner of choice in our community."
	Innovation and Sustainability The first goal of this element is "Provide sustainable academic and research facilities and infrastructure to meet the education, research, workforce development, and support missions of the University, and meet the evolving demands of student enrollment and investors."
SUSTAINABILITY	The University's commitment to sustainability and the protection of the environment is evident throughout this element.
	Goals, Objectives and Policies that align with the Sustainability Tracking, Assessment & Rating System TM (STARS) ¹ are shown in green text, with the specific <i>Category and Impact Areas</i> , Operations (OP) and Planning and Administration (PA) , and the specific credits indicated in parentheses:
	 OP 1: Building Design and Construction PA 2: Commitments and Planning
RELATED ELEMENTS	See these related elements:
	1.0 FUTURE LAND USE - for the Future Land Use Map (FLUM)
	2.0 TRANSPORTATION - for proposed transportation improvements
	3.0 HOUSING - for proposed housing improvements
	4.0 GENERAL INFRASTRUCTURE - for proposed utility infrastructure improvements
	6.0 RECREATION AND OPEN SPACE - for proposed recreation and athletics improvements
GLOSSARY	REMODELING means the changing of existing facilities by rearrangement of spaces and their use. [Florida Statute 1013.01(17) and BOG Regulation 14.001(16)]
	RENOVATION means the rejuvenating or upgrading of existing facilities by installation or replacement of materials and equipment. [Florida Statute 1013.01(18) and BOG Regulation 14.001(17)]

¹ STARS (Sustainability Tracking, Assessment, and Rating System) is "a transparent, self-reporting framework for colleges and universities to measure their sustainability performance."

8.2 GOALS, OBJECTIVES, & POLICIES

to meet the education, resea	e academic and research facilities and infrastructure arch, workforce development, and support missions the evolving demands of student enrollment and
OBJECTIVE 1.1: Ensure that state-of-the-art facilities and supporting infrastructure will	POLICY 1.1.1: The University shall evaluate growth patterns and data to predict the need for capital improvements, including reviewing:
be available to meet the needs of the University.	 enrollment growth to evaluate classroom and teaching lab needs
	 research and faculty growth to evaluate research laboratory needs
	 space utilization data to evaluate office, classroom, and other space needs
	 campus growth to evaluate infrastructure needs
	Refer to Future Land Use Goal 3 for related requirements regarding the University's "Carrying Capacity".
	POLICY 1.1.2: When necessary, the University shall consider the use of facilities in other areas, including satellite campuses and partnerships with state colleges, schools, and local businesses.
	POLICY 1.1.3: The University shall prepare a yearly Capital Improvement Plan (CIP) requesting planning, construction, and equipment funds for all proposed capital projects within the next five (5) year time frame. The CIP shall include project descriptions and justifications.
OBJECTIVE 1.2: Provide for the replacement and renewal of capital facilities and infrastructure to meet	POLICY 1.2.1: The University shall renovate, repair, and upgrade existing buildings and infrastructure to increase their useful life spans, or demolish aging facilities no longer able to serve existing or future needs.
growth; remodel and/or renovate facilities and infrastructure; and demolish obsolete facilities.	POLICY 1.2.2: The University shall review the facilities condition of all campus structures and infrastructure every three years to determine the need for replacement, repairs, or renovations to meet ongoing and changing needs of the campus. The University shall systematically evaluate aging facilities to determine whether or not they can serve existing or future needs.
	POLICY 1.2.3: The University shall demolish facilities that are listed under "Demolition Recommendations" on the

² Language taken from the Strategic Plan. Priority 4 Innovation and Sustainability speaks to "sustainable facilities" and Planning Considerations speaks to "evolving demands of our students and investors."

Educational Plant Survey. Demolition should involve careful deconstruction and recycling or reuse of building materials where possible.

POLICY 1.2.4: When a new building is completed, vacated areas of older facilities may be renovated to meet the needs of new occupants. The University shall provide space to accommodate faculty, staff, and students displaced by renovation.

OBJECTIVE 1.3: Coordinate land use with a schedule of capital improvements that will meet existing and projected facility and infrastructure needs.

POLICY 1.3.1: Land uses for proposed building sites shall be consistent with the future land uses indicated on the Future Land Use Map (FLUM).

POLICY 1.3.2: Site locations for all projects on the Schedule of Capital Projects (SCP) shall be shown on the Capital Improvements Map.

GOAL 2: Implement improvement projects with approved funding sources.

OBJECTIVE 2.1: Capital improvement projects and funding are to align with Capital Improvement Plan (CIP) and Master Plan goals.

OBJECTIVE 2.2: Seek additional funds to augment state capital construction funds.

POLICY 2.1.1: The University shall seek state funds, federal funds, research grants, and donor funds to construct teaching, research, housing, athletic, and support facilities as described in the CIP.

POLICY 2.1.2: Capital budget requests each year shall be consistent with the provisions of the Campus Master Plan, Educational Plant Survey and with Campus Development Agreements with local governments.

POLICY 2.2.1: The University shall work with the UCF Foundation to seek external funds in the form of gifts and donations to provide campus facilities.

POLICY 2.2.2: The University may obtain funding through the selling of revenue bonds to construct and renovate student housing, on-campus healthcare facilities, and on-campus parking structures.

POLICY 2.2.3: The University may use auxiliary funds for specific construction needs, such as parking lots, parking garage structures, bookstore expansion, and other auxiliary support space needs.

POLICY 2.2.4: The University may seek funding through other state and non-state sources to meet construction requirements that are needed as part of the Campus Master Planning process.

POLICY 3.1.1: The University shall first consider remodeling and/or renovation of a facility before demolition and
construction a new replacement building.
POLICY 3.1.2: The University shall regularly review STARS goals and incorporate strategies where appropriate in order to move towards a higher STARS rating.
(OP-1: Building Design and Construction) (PA-2: Commitments and Planning)
POLICY 3.2.1: The University shall incorporate methods for obtaining competitive pricing for capital improvement projects over \$4 million.
POLICY 3.2.2: The University shall carefully analyze design and construction bids, and negotiate or value-engineer to align with established budgets.
POLICY 3.3.1: The University shall prepare for natural disasters with long-term resilience planning.
POLICY 3.3.2: The University shall prioritize infrastructure and capital improvements that support long-term resilience that aligns with the strategic plan of the University.

Blank Page

8.3 DATA & ANALYSIS

T

Pr	oject Funding	
0	verview	The following is an inventory and assessment of existing and anticipated revenue sources and funding mechanisms available for capital improvement financing.
•	Public Education Capital Outlay (PECO)	The University receives funding from the State for capital improvements in various appropriation types. The primary funding source is Public Education Capital Outlay (PECO). These funds are appropriated to the State University System (SUS) pursuant to Section 1013.64(4), Florida Statutes, which provides that a list of projects is submitted to the Commissioner of Education for inclusion in the Fixed Capital Outlay Budget Request. A lump sum appropriation (sum of digits) may be provided for remodeling, renovation, maintenance, repair, and site improvements for existing satisfactory facilities. The projects funded from PECO are normally for institutional, academic support, or institutional support purposes.
•	Capital Improvement Trust	UCF students pay Capital Improvement Fees and Building Fees as part of their tuition, in accordance with Florida Statue 1009.24
	Fund (CITF)	"Capital Improvement Trust Fund (CITF) is funded by student fees to support student related projects. Funds are collected by the university and transmitted to the State to pay for debt service. Remaining funds are returned to university after receiving legislative authorization. A portion of the fee may be used for university child care centers." ³
		Student-related projects include student unions, libraries, university childcare centers and recreation facilities. Projects funded by CITF are selected and prioritized by the CITF Committee (see Approval and Advisory Committees in this D&A)
•	Private Donations and Grants	Private donations and grants are another source of revenue authorized by Florida Statute. Legislative approval is not required for the use of these funds.
•	Debt and Bonds	Auxiliary Organizations, such as Housing and Residence Life, Business Services, and Parking and Transportation Services, and Direct Service Organizations, such as UCF Athletics, use revenues collected from their operations to fund capital improvements. Auxiliaries may also bond capital improvements and pledge auxiliary revenues for debt service. Either method requires BOT approval.
•	Federal Funding	Examples of recent federal funding included programs such as:
		 U.S. Department of Education - <i>Higher Education Emergency</i> <i>Relief Fund (HEERF)</i>, authorized by the CARES Act. U.S Department of the Treasury - <i>State and Local Fiscal Recovery</i> <i>Funds (SLFRF)</i>, authorized by the American Rescue Plan Act.

9 | 8.3 CAPITAL IMPROVEMENTS - D&A

Capital Improvement Planning Documents

Overview		The following is a description of planning documents submitted to the
		BOG or the State to inventory and assess capital improvements.
•	10-year Schedule of Capital Projects (SCP)	The Campus Master Plan includes a 10-Year Schedule of Capital Projects (SCP), based on needs identified throughout the Campus Master Plan. The SCP will include all projected projects on all campuses for the 10-Year planning interval.
		The SCP defines improvements as 3-year committed, 10-year projected, and those consistent with the Campus Development Agreement (CDA).
		In the five-year interval between Campus Master Plan updates, the Board of Trustees may amend the SCP to add, remove, rename, or relocate projects.
•	Five-year Capital Improvement Plan (CIP)	The CIP includes a prioritized list of the University's current and future capital project for a five-year period, submitted to the state for capital funding requests. The CIP identifies variables such as project priority, purpose, cost, and proposed timing.
		The CIP will be revisited and submitted to the state annually, allowing variable factors to be adjusted based on circumstances such as emerging strategies, changes in priorities, cost or scheduling, or new funding opportunities.
•	Annual Fixed Capital Outlay Budget Request	The Budget Request is prepared annually by Facilities and Business Operations in collaboration with the Senior Vice President of Administration and Finance.
	(FCOB)	The FCOB is approved by the Provost, University President, and the Board of Trustees (BOT), then submitted to the State University System of Florida Board of Governors.
•	Plant Operations and Maintenance (PO&M)	The State of Florida provides Plant Operations and Maintenance (PO&M) funding for most of the University's facilities that contain Educational and General (E&G) space. Since 2016, the state has not provided PO&M funding for any newly-constructed or expanded E&G buildings.
		The cost of operating and maintaining Auxiliary space is derived from auxiliary revenues.
Ap	proval and Advisor	y Committees
Ov	erview	The following is a description of committees and governing bodies used to evaluate and facilitate campus planning and capital improvements.
•	Facilities and Infrastructure Committee	The Facilities and Infrastructure Committee ⁴ is a standing committee of the University of Central Florida Board of Trustees. The purpose of the committee is to advise the Board on the University's capital improvement needs, including but not limited to, campus master planning, new construction projects, deferred maintenance, real estate, information technology, operational technology, and cybersecurity.

⁴ The BOT Facilities and Infrastructure Committee replaced the Facilities and Finance Committee in July 2021. 10 | 8.3 CAPITAL IMPROVEMENTS - D&A

"The Committee will review and recommend the following to the Board for action: Construction projects (new, remodeling, site work) with a projected total project cost in any amount greater than \$2 million, and any material changes to the projects." (F&I Charter)

• Capital Project Planning Committee (CPPC) The purpose of the CPPC is to develop an annual comprehensive list of capital project requests for the university, prioritize the capital project needs of the university, and recommend funding sources for these projects.

Capital projects are defined as new construction projects of any value, remodel/renovation projects that exceed \$4M total project cost, or projects that require real estate transactions that require UCF BOT approval.

• University Master Planning Committee (UMPC) The UMPC is a Faculty Senate Joint Committee that serves as an advisory body to the University President on short- and long-range issues related to land use, facilities planning, and future development of the campus, including the protection and preservation of natural resources.

> Its broadly representative group of faculty, administrators, staff, and students provides recommendations on matters related to campus aesthetics including signage, site furnishings, public art, and some temporary installations.

 Capital Improvement Trust Fund Committee (CITF)
 Projects funded from the Capital Improvement Trust Fund (CITF) are selected and prioritized by the CITF Committee, an ad hoc advisory committee formed jointly by Student Success and Well-Being (SSWB) and Student Government (SG).

> UCF's Capital Improvement Trust Fund Committee serves to develop and recommend a list of projects for which to request CITF funds, and recommends any increase in the student CITF fee.

The recommendations of the CITF committee take effect only after approval by the Student Body President and University President, with final approval by the Board of Trustees.

• University Space Committee (USC) The University Space Committee (USC) is a standing committee and governing body formed to evaluate potential impacts to the University from proposed real estate and space initiatives. The committee is charged with overseeing and maintaining best practices for use of space throughout UCF.

The USC makes recommendations to the executive administration regarding space and real estate initiatives and whether they are in the University's best interest.

The USC is comprised of decision-makers who are involved in real property and/or space matters in each University area (or their designees). Subject matter experts and/or guests are invited as necessary.

 Other Advisory Bodies 							
Faculty Senate	The Faculty Senate is the primary voice of the faculty and serves as the main channel of communication between faculty and administration.						
 Student Government (SG) UCF Community Council and Neighbors UCF UCF UCF Student Government Student Government Student Government Student Government Student Government Student Government Student Government Student Government SG president is a representative body modeled after the United Sta government with Executive, Legislative, and Judicial branches. The SG president is a member of the Board of Trustees and the Cl Committee. In this capacity, the student body president represents students regarding capital and campus planning. Members of the 2025-35 Campus Master Plan. The UCF Community Council and Neighbors is a vital body neighbors of the University. The University communicates with the group regarding: Statutory meetings (CMP, BOT, etc.) 							
Government	The SG is a representative body modeled after the United States government with Executive, Legislative, and Judicial branches. The SG president is a member of the Board of Trustees and the CITF Committee. In this capacity, the student body president represents the students regarding capital and campus planning. Members of the SG were included in the majority of the Element Teams that developed this 2025-35 Campus Master Plan.						
Community Council and	The UCF Community Council and Neighbors is a vital body of neighbors of the University. The University communicates with this group regarding:						
Neighbors	 Statutory meetings (CMP, BOT, etc.) Status of Projects meetings Prescribed burns Traffic issues (Commencement, etc.) Athletics and other campus events 						
Capital Planning Proc	edures, Policies, and Tools						
Overview	List and describe procedures, policies, documents, and tools that UCF uses to implement Capital Projects.						
 5-Year Capital Improvement Plan (CIP) 	Annually, in Spring, the 5-Year Capital Improvement Plan (CIP) is prepared by Facilities and Business Operations and submitted to the UCF Board of Trustees for approval.						
	After BOT approval, the CIP is submitted to the Florida Board of Governors as part of the Fixed Capital Outlay Budget Request.						
	 The CIP includes: The PECO request - a prioritized list of up to five PECO projects, the funding type and amount being requested, and the years in which funding is being requested for planning, construction, and equipment. A list of the CITF committee's selections for CITF funding. A list of capital projects requiring Legislative authorization to be constructed, acquired, and financed by a university or a university direct support organization, aka the Back of Bill. 						
 Campus Master Plan Amendments 	 The PECO request - a prioritized list of up to five PECO projects, the funding type and amount being requested, and the years in which funding is being requested for planning, construction, and equipment. A list of the CITF committee's selections for CITF funding. A list of capital projects requiring Legislative authorization to be constructed, acquired, and financed by a university or a 						

		 Minor Amendments may be approved by a vote of the UCF Board of Trustees. To be defined as a Minor Amendment, the statute limits changes in land use, loss of natural areas, and impact on public facilities or services provided by the state, county, and host or affected local governments. Major Amendments must be adopted by the same process as the Campus Master Plan itself, in accordance with Florida Statute 1013.30 (6-8).
•	Educational Plant Survey (EPS)	In Florida, all public school districts, colleges and state universities are required to conduct an Educational Plant Survey (EPS) at least once every 5 years using "uniform data sources and criteria" (Florida Statutes 1013.31).
		An EPS is a systematic and comprehensive study of each institution's sites, buildings, and the site improvements required to operate the facilities. It includes a review of both the 1) existing educational and ancillary facilities and 2) anticipated future needs for repair, expansion and/or demolition.
		The EPS is a safeguard mechanism to ensure that PECO dollars, and the assets constructed with PECO dollars are being directed appropriately towards needed educational buildings.
		The current <u>2021 Educational Plant Survey</u> was performed in 2020 and remains in effect from July 1, 2021 through June 30, 2026.
٠	Project Approvals	UCF requires several internal approvals for capital projects: ⁵
		• The BOT Facilities and Infrastructure Committee charter requires the committee to review construction projects (new, remodeling, site work) and any material changes to the projects.
		• The Capital Projects Approval Policy requires that a <i>Capital Projects Funding Certification Form</i> be completed and signed by the University President, the Vice President submitting the request, the Chief Financial Officer, and General Counsel.
•	Building Programs	Board of Governors Regulation <i>14.004 Fixed Capital Outlay</i> <i>Legislative Budget Request Procedures</i> states: "The university is responsible for the preparation of a project's <i>building program</i> as well as institutional capital improvement planning, which shall be consistent with the university's strategic plan, campus master plan, and educational plant survey."
		UCF prepares Building Programs (BP) for proposed new buildings. The intent of a BP is to define a project's high-level objectives and campus impacts. As required by the BOG, it assures the proposed project aligns with the university's Strategic Plan, Campus Master Plan, and Educational Plant Survey. UCF adds a description and history of the project and information on the site and infrastructure.

⁵ Currently, these UCF approval requirements for capital projects is limited to projects with a projected total cost greater than \$2 million.

•	Academic Programs	For large academic projects, PDC oversees academic programming, using highly qualified professional consultants to program each type of facility.
		Academic Programs are prepared after extensive deliberation and consultation with the colleges and departments that will be occupying a proposed facility.
		 The purpose of Academic Programming is to: Document how UCF wants to utilize space in capital project; Explore and promote shared space for more efficient use; Describe quantities of each type of space (classrooms teaching labs, research labs, offices, etc.); Estimate the overall size of the facility; Capture and disseminate a cooperative philosophy and the direction UCF would like to follow in commencing design.
•	Land Use Plans (LUP)	All land on the Main Campus belongs to the State of Florida. Land Use Plans (LUP) are submitted for all BOT leases of non-conservation properties.
		As a manager of non-conservation lands, UCF submits a LUP to the Division of State Lands one year from the effective date of the lease (anniversary date). LUPs are intended to address the requirements of Florida Statute 253.034 and Florida Administrative Code 18-2.018.
