

## **NOTICE TO PROFESSIONALS**

The University of Central Florida has a need for several firms to provide environmental engineering services on an ongoing basis for campus utility infrastructure condition assessment and management services on projects that have a construction budget of less than \$7,500,000, or studies for which the fee for professional services is less than \$500,000. Services required may include design, construction documents, environmental compliance review and administration.

Firms will provide condition assessment, upgrades needed to maintain regulatory compliance and economic lifecycle analysis of underground utilities infrastructure systems including Chilled Water, Hot Water, Natural Gas, Potable Water, Reclaimed Water, Sewer, and Storm Water. Provide gap analysis of current asset, inventory, and compliance management. Develop an ongoing condition assessment program for UCF utilizing non-invasive techniques as much as possible. The goals of this project are risk management, financial budgeting and forecasting, and regulatory compliance.

The Selection Committee may reject all proposals and stop the selection process at any time. The University also reserves the right to cancel the project at any time.

Instructions for submitting a proposal can be found on the Project Fact Sheet. The Project Fact Sheet and General Contractor's Form may be obtained on our website [www.fp.ucf.edu](http://www.fp.ucf.edu) or by contacting: Gina Seabrook, Email: [gina.seabrook@ucf.edu](mailto:gina.seabrook@ucf.edu), Phone: (407) 823-5894.

**We are accepting only electronic submissions, to be uploaded at:**

**<https://ucf.bonfirehub.com/opportunities/199515>**

Submittals must be received by 5:00 p.m. local time September 22, 2025. Late submissions or additional documentation will not be accepted.
